2.3. **GARDEN VISITORS**

The number of Garden visitors has increased significantly over the past few years. It is hoped that with the contribution from the restaurant, visitor figures will increase substantially.

It is thus important for the operator to explore special offers for pensioners when most appropriate to ensure ongoing business especially during the quiet months (June to July). In 2016/17 financial year, the Walter Sisulu National Botanical Garden received a total of **285 999** visitors.

SECTION 3 – THE REQUIRED CATERING SERVICE

3.1 THE RESTAURANT

The restaurant will be utilised as a venue for light meals, snacks, and drinks mainly but should also offer main meals for garden visitors wanting to spend more. The restaurant is to offer a service that coincides with the opening times of the Garden unless otherwise agreed with SANBI. Past experience indicates that there is insufficient demand for a dinner-venue unless function-orientated or a specific day/s is allocated to provide for this. (For example corporate dinners, a Friday night dinner special, etc.)

3.1.1 THE KIOSK

The Kiosk forms part of the restaurant. It is a small side area which is mainly for items on the go. Examples of items normally sold in this kiosk are things like ice cream, water and soft drinks. Currently the kiosk is only open on weekends and on public holidays.

Tenderers are to include full details in the Forms of Tender. Full details on how they propose developing and operating this venue including menus, selling prices, marketing plan, sketches, photos, sample boards, etc. must be included.
The restaurant concept is to appeal to families, business people, tourists and locals. The food is to be moderately priced, stylish and of a quality befitting a prestigious venue as this Garden.

SANBI will only consider proposals that comply with its mission to preserve and promote the biodiversity of South Africa. Furthermore, the Operator must be able to offer certain food items on a self-service basis. Typically such items may include picnic lunches, drinks, snacks etc. It is thus important for the operator to explore special offers for pensioners when most appropriate to ensure ongoing business especially during the quiet months.

3.2 METHOD OF PAYMENT
The Operator is to accept all major credit cards and cash.

3.3 FUNCTIONS
The Operator will be required to abide by SANBI’s policy on noise levels and will have to seek SANBI’s approval prior to any event involving music, public address systems and similar. Fireworks are not permitted.

3.4 CATERER EXCLUSIVITY
The Operator will not have exclusive rights to cater for functions/events catering held at the Garden. For example winter concerts may have snacks served by another caterer. However SANBI undertakes to inform the Operator of forthcoming events.

3.5 SELLING PRICES
Menu selling prices submitted with the Forms of Tender are to remain valid for a period of six (6) months from the date of submission of the Tender unless otherwise agreed with SANBI.

Selling prices are to represent good value for money and be market-related. All selling prices are to be clearly displayed by the Operator and are to include VAT.
3.6 PACKAGING/DISPOSABLES

Take-away items are to be presented in packaging that is hygienic, attractive, preserves product quality and enables the food item to be easily eaten. All packaging should be recyclable or biodegradable. At the discretion of the Operator, all take-away items may be accompanied by information on environmentally friendly practices to be in keeping with SANBI’s mandate.

Any food transported around the Garden is to be placed in biodegradable or ecofriendly, lidded or covered containers. Temperature of hot food is to be maintained at 65°C or above and cold food at 4°C or below until time of consumption.

The Operator is to provide SANBI with a list of forthcoming functions by the last weekday of each month. Guest lists for the entrance passes are to be provided to SANBI at least 48 hours prior to the function.

3.7 LAUNDRY

The Operator will be responsible for its own laundry including any function linen. Its staff will be expected to change their uniforms daily.

In the event of contract anomalies and “Mystery Dining” reports indicating results below pre-determined and agreed standards, the Operator will be given a written warning and two weeks to take the necessary action (or as agreed between both parties). Should the Operator fail to reach levels of acceptability after a second assessment carried out within one month of the previous visit, a second warning will be issued and a further two weeks given (or otherwise agreed by both parties) to rectify the problem. If after a third assessment, standards are still below levels of acceptability, the Operator may be served notice in terms of the contract.

- public liability relating to the service being offered and during any shop-fitting;
- any loss or damage to cash, its own equipment, stock and property.

SANBI will be responsible for insurance against its own public liability and any loss or damage to its equipment by fire or theft.
4.4 COMPLAINTS, COMMENTS & COMPLIMENTS
All complaints, comments or compliments regarding the catering must be forwarded to SANBI.

In circumstances of legitimate complaints concerning the standards of food service, the guest should be offered either a refund or the opportunity of another meal with the compliments of the Operator.

4.5 MANAGEMENT REPORTING
SANBI requires the following monthly reports from the Operator:
- daily number of transactions/customers;
- typical average spend;
- number, size and average spend of any functions; and
- daily net sales revenue under the headings: Functions and restaurant.
- Monthly turnover for purposes of calculating rental

Other reports may be requested from time to time.

At the end of each financial year, the Operator will be required to present SANBI with audited accounts.

4.6 PURCHASING & STOCK
The Operator will be expected to monitor the standard of goods received. In particular SANBI requires the Operator to:
- randomly weigh products;
- check temperatures of chilled and frozen foods (chilled food must be no higher than 4°C and frozen food not higher than –18°C);
- inspect for damaged goods and packaging; and
- check the hygiene of containers, baskets and other receptacles used in the delivery process.
Food is to be moved to suitable storage areas within 10 minutes of arrival at the destination i.e. all chilled food is to be placed in refrigerators, frozen food into freezers and hot food into warmers, etc.

4.7 STAFFING
The Operator will be entirely responsible for the employment and conditions of service of its employees and will only employ such persons who are in good health and have a high standard of personal hygiene.

Any member of staff who reports to duty suffering from any illness likely to put colleagues and customers at risk, should report to their supervisor who will discharge them from duty until such a time as they are fit to resume normal duties.

The Operator’s staff and management are to be smart in appearance at all times. The provision of uniforms is the responsibility of the Operator, although the style, fabric and design are to be submitted for approval at the tendering process. Any changes to uniforms thereafter are to be approved by SANBI.

All staff members (including temporary employees) in contact with the public are to wear name badges.

The Operator’s staff must behave in a quiet, courteous and professional manner at all times and should not consume food and drink whilst serving visitors. The consumption of alcoholic drinks and smoking of harmful substances is not permitted during working hours. Should staff wish to smoke tobacco, they are to do so outside the SANBI building and out of sight of restaurant customers.

The Operator’s staff members are to be adequately trained in the tasks they are expected to perform. If necessary, SANBI will request to see training certificates, proof of training courses and qualifications from time to time during the term of the contract.
The Operator will be expected to provide refresher courses on a regular basis particularly with regard to food safety and hygiene and customer service.

It will be the Operator's responsibility to ensure that all labour legislation is complied with, including the Employment Equity, Skills Development, Labour Relations and Basic Conditions of Employment Acts. The Operator will be expected to familiarise itself with SANBI's relationship with the State and it's employment equity philosophy. The Operator must not do anything that causes industrial unrest within SANBI staff.

SANBI reserves the right to veto the employment of any member of the Operator's staff, in order to ensure that the best interests and security of the Garden are maintained.

The Operator's staff will be expected to be knowledgeable about the Garden. To assist in this regard, SANBI may hold short briefing sessions as necessary. New staff will be expected to attend as well as those requiring an up-date.

4.10 DISPUTES
If any dispute or difference of opinion arises between SANBI and the Operator in connection with the contract or the carrying out of duties under the contract, agreement is to be reached by amicable discussions. Failing such agreement the dispute shall be referred to an independent person of good repute and standing agreed by both parties. If the parties are still not able to agree, the arbitration clauses in the lease will apply.
