

KIRSTENBOSCH ESTATE PLANT SPECIES LIST

This is a current historical plant species list for all the plant species recorded on the Kirstenbosch Estate between 1978 to 2006.
 # As a historical list, it includes exotic species which are currently being removed on the estate as they are identified.
 # If you would like to contribute to this list, please contact Augustine Morkel at amorkel@sanbi.org or at +2721 799 8899.
 # This list is arranged alphabetically by the "Genus" column. Please use the "arrows" per column to search within the columns.
 # Please note the references and sources at the bottom of list.
 # Please ensure that you are attached to an internet connection to be able to use the Hyperlink (blue text) functions.
