CERTIFICATE OF INDEPENDENT QUOTATION DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all quotations¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:
- 6 Includes price quotations, advertised competitive bids, limited bids and proposals.
- 7 Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower

the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

To appoint a service provider to facilitate protected area declarations in South Africa by providing legal support to relevant organs of state. The envisaged support includes clarifying legal requirements for the declaration process and support to unblock legal, administrative and procedural challenges regarding protected area declarations towards implementation of the Biodiversity and Land Use Project

SANBI Ref:Q6256-2018

1. Background

The Global Environment Facility (GEF) funded Biodiversity and Land Use Project, implemented by SANBI and its partners seeks to mitigate multiple threats to biodiversity by increasing the capabilities of authorities and land owners to regulate land use and manage biodiversity in threatened ecosystems at the municipal scale. The project aims to deliver a package of measures that will ensure future land use practices and permitting decisions do not compromise biodiversity and ecosystem function.

One of these measures is biodiversity stewardship. Biodiversity stewardship is an approach to securing land in biodiversity priority areas through entering into agreements with private and communal landowners. Often these agreements are to establish protected areas.

Currently, conservation agencies responsible for protected area expansion have significant financial and capacity constraints which hinder their ability to meet national and international biodiversity conservation goals and specific provincial protected area expansion targets. Biodiversity stewardship has been proven to be a cost effective way to declare protected areas and secure protected area expansion targets.

There are a number of challenges which impacts the efficient implementation of provincial biodiversity stewardship programmes in South Africa. The lack of sufficient legal capacity to support the declaration of protected areas is one such challenge.

2. Objectives of the work

SANBI wishes to appoint a service provider with the necessary skills and experience to provide legal support to relevant organs of state to meet the legal requirements for the declaration of protected areas and to unblock legal, administrative and procedural challenges regarding protected area declarations towards implementation of the Biodiversity and Land Use project deliverables.

3. Requirements of the service provider

The successful service provider will be responsible for the following activities in line with the above objective:

- Collate coherent standards and support to provinces for all Protected Area declarations (including standard forms, templates, checklists etc.)
- Assist with resolving administrative issues, intergovernmental disputes and other obstacles to declaration through the provision of appropriate legal opinion and research.
- Engage with the Registrar of Deeds, Department of Public Works and the Surveyor-General around the declaration of Protected Areas where required.
- Help migrate Protected Areas from other departments to conservation agencies (e.g. DAFF forestry exit lands, or State Forests currently languishing without staff or budget)
