CERTIFICATE OF INDEPENDENT QUOTATION DETERMINATION

1. This Standard Bidding Document (SBD) must form part of all quotations¹ invited.

2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5. In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:
   
¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. Background

The South African National Biodiversity Institute (SANBI) contributes to South Africa’s sustainable development by facilitating access to biodiversity data, generating information and knowledge, building capacity, providing policy advice, implementing action research within demonstration catchments and or municipalities, and showcasing and conserving biodiversity in its national botanical and zoological gardens. SANBI manages various donor funded projects including internationally funded projects such as the Ecological Infrastructure for Water Security Project in support of key areas of work in its mandate that respond to the national development imperative.

The Ecological Infrastructure for Water Security (EI4WS) Project, a five-year project, was initiated in February 2018 to unlock development finance to secure ecological infrastructure for water security in two critical water catchments. SANBI is implementing the project, together with its partners, with funding from the GEF through the Development Bank of Southern Africa (DBSA).

Broadly, the objective of the EI4WS Project is to develop policy and capacity incentives for mainstreaming biodiversity and ecosystems values into national, regional and local development policy and finance, with application demonstrated in two water catchments. The project works in two demonstration catchments; the Berg-Breede and the Greater uMngeni catchments.
