CERTIFICATE OF INDEPENDENT QUOTATION DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all quotations¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:
- 6 Includes price quotations, advertised competitive bids, limited bids and proposals.
- 7 Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods

and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

REQUEST FOR QUOTATION

TERMS OF REFERENCE: Q6970-2020

THE SOUTH AFRICAN NATIONAL BIODIVERSITY INSTITUTE (SANBI) REQUIRES THE PROFESSIONAL SERVICES OF A FRESHWATER ECOLOGIST AS THE SPECIALIST RIVER AND WETLAND CONSULTANT FOR THE FURTHER IMPLEMENTATION, MONITORING AND REPORTING OF THE MAINTENANCE MANAGEMENT PLAN FOR THE DAWIDSKRAAL RIVER AT THE HAROLD PORTER NATIONAL BOTANICAL GARDEN, BETTY'S BAY

1. INTRODUCTION AND BACKGROUND

The Dawidskraal River originates in the Kogelberg mountains and enters the sea at Betty's Bay, South Western Cape. The Harold Porter National Botanical Garden (HPNBG) lies on either side of the Dawidskraal River, upstream of Clarence Drive, which is the main road through Betty's Bay.

Figure 1: Location plan

The Dawidskraal River has experienced two significant flood events during the last 15 years, which have caused widespread damage to infrastructure and property. The first of these flood events occurred in April 2005 (this flood was estimated to have a 1:68 year return period) and

the second during November 2013. The extent of development within the HPNBG and downstream floodplain have increased between the two flood events.

The HPNBG, Overstrand Municipality and local residents are concerned about the risk of frequent flooding and are looking for a long-term solution to reduce this risk. The South African National Biodiversity Institute (SANBI) appointed a professional service provider who has completed a storm water master Plan with the input of a professional freshwater consultant. A Maintenance Management Plan (MMP) has been formulated which has subsequently been approved by the Department of Environment, Forestry and Fisheries (DEFF). SANBI has appointed a service provider who has completed certain MMP activities and now requires a freshwater ecologist for the further monitoring and reporting of the behaviour of the Dawidskraal River and surrounding wetlands. SANBI implemented the MMP in accordance with the scale and priority of the interventions required.

Rehabilitation interventions that have been completed for the Dawidskraal River include, but are not limited to:

- Rehabilitate erosion damage in the Disa Kloof stream;
- Construction of an earth berm;
- Replacement of damaged flood control / diversion structures; and
- Removal of accumulated sediment and vegetation (mainly Palmiet).

The approved MMP has strict requirements that must be adhered to in order to ensure that the rehabilitation objectives described in Section 2 of this document are achieved, and to prevent potential negative impacts on the environment while implementing the approved MMP.

2. OBJECTIVES

The purpose of the MMP is to achieve the following objectives identified for the Dawidskraal River system:

- Establish and maintain a more natural hydrological regime for the Dawidskraal system, which allows for the long-term maintenance of the wetland / terrestrial mosaic downstream of Clarence Drive;
- Prevent and address erosion that threatens existing buildings and infrastructure, without impacting negatively on the aquatic ecosystem condition, and allow for the replacement of such structures; and
- Prevent and address erosion that threatens river or wetland habitat quality, or other areas of biodiversity importance.

3. INVITATION TO QUOTE

Quotations are hereby invited for the services of a professional freshwater ecologist for providing guidance, oversight and reporting as the specialist river and wetland consultant for the further implementation of the Maintenance Management Plan for the Dawidskraal River from the most upstream weir within the HPNBG to the sea at the HPNBG, Betty's Bay.

The procurement process will be co-ordinated by SANBI's Supply Chain Management (SCM) at the following address:

SCM Manager
South African National Biodiversity Institute (SANBI)
Private Bag X101
Pretoria

All quotations submitted are entirely for the cost of the entity submitting the proposal. SANBI shall be exempt from all costs associated with submissions, either in part or in full.

4. COMPULSORY BRIEFING SESSION

SANBI is committed to the health and safety of all bidders and staff members and reducing the spread of COVID-19. As a result, with guidance from regulations published by the National Department of Health, no briefing session or site inspection will be held.
