

Land Reform and Biodiversity Stewardship Resources Table

DOCUMENT NAME	DETAILS
Lessons learnt and sustainability report: Biodiversity Stewardship	Report
Strategic Review of the Land Reform and Biodiversity Stewardship Initiative	Review report
National Biodiversity Stewardship Conferences and Learning Exchanges	
2020 Land Reform and Biodiversity Stewardship Learning Exchange	Themed: Reshaping rural development through biodiversity stewardship
2018 Biodiversity Stewardship Conference	Themed: 'sustainable land use for our shared future'
2017 Biodiversity Stewardship Conference	
Biodiversity Stewardship Resources	
Biodiversity Stewardship Business Case Factsheet	
Business Case for Biodiversity Stewardship 2017	
Biodiversity Stewardship for Communities Factsheet	
Biodiversity Stewardship Guideline 2009	

Information document for MECs declaring biodiversity stewardship protected areas in South Africa	
Biodiversity Stewardship Guideline 2018	
Eastern Cape Biodiversity Stewardship Programme 2017	Brochure on the Eastern Cape Biodiversity Stewardship Programme 2018
Patch Mosaic Burning	
Benefits of Patch Mosaic Burning diagram	Diagram
Principles & Steps for conducting patch mosaic burn	information poster
Burning for Biodiversity: Guidelines for Patch Mosaic Burning	Guidelines for Patch Mosaic Burning in landscapes with emphases on high altitude grasslands
Streamflow Monitoring for Catchment Health	Basic protocol for repeated streamflow measurements and monitoring site and equipment maintenance
Water Stewardship	
Water Stewardship: Farming for a better future (English & Afrikaans)	Brochure
Hydro-geomorphic Classification of Digitised Water Resource Areas in the Umgungundlovu District	
Hydrological Modelling Assessment for Riparian Clearing Scenarios within the Umgungundlovu District Municipality, Kwazulu Natal	
Miscellaneous	
Fynbos poster	poster on the importance of fynbos

SUSFarms Biodiversity booklet	Sugar
SIZA Environmental brochure	Fruit
Blyde restoration custodian project Brochure 2019	Brochure
Tax incentives resources	
<ul style="list-style-type: none"> • Infographic • Section 37D Fact Sheet • Section 37C Fact Sheet • Environmental Tax Overview • Section 37D Flow Diagram • Section 37C Flow Diagram • Section 37D Flow Chart • Section 37D Tax Example 1 • Section 37D Tax Example 2 • Tax Alert 2016 • Tax Alert 2017 • Testimonials • Achievements Diagram • WFA – Fiscal Benefits Project Partner Banner <p>Tax Incentives</p>	<p>The BirdLife South Africa’s Fiscal Benefits Project was launched in 2015 with the aim of testing biodiversity tax incentives as a benefit for landowners declaring Protected Areas, through the Biodiversity Stewardship model. The Fiscal Benefits Project began with the achievement of introducing a new tax incentive, section 37D, into the Income Tax Act. S 37D gives landowners a tax deduction for their conservation commitment. It allows the value of a Nature Reserve or National Park to be deducted from taxable income, reducing the tax owed by a landowner.</p> <p>This tax incentive is a national first and its successful inclusion in a tax return in 2016 creates the first fiscal reward for biodiversity conservation in South Africa. This achievement now paves the way for other privately owned Protected Areas to receive financial recognition.</p>
Biodiversity Stewardship Training	
Rangeland Management 2020	
Developing Management Plans 2020	
Implementing Biodiversity Stewardship on Communal Land 2019	

Protected Area Expansion Legal Capacity Building 2018	
Train a Trainer on Biodiversity Stewardship and Business Enterprise development (Trainer and Trainee Manual)	
Implementation of the 2018 BDS Guideline and the development of management plan	Module 1: The general introduction of principles and the Biodiversity Stewardship categories.
	Module 2: The landowner engagements, biodiversity assessments and reviews.
	Module 3: the Legal agreements and the declaration process.
	Module 4: Development of Management Plans.
	Module 5: Post Declaration Support
