CERTIFICATE OF INDEPENDENT QUOTATION DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all quotations¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

REQUEST FOR QUOTATION

The South African National Biodiversity Institute (SANBI) hereby invites service providers to submit quotations to Repair and install bentonite water proofing on the wetland pond at SANBI, Pretoria National Botanical Garden Campus.

TERMS OF REFERENCE

1. Purpose:

The purpose of this Request for Quotation (RFQ) is to invite service providers to submit quotations for the repair and water proofing of the wetlands pond, at the Pretoria National Botanical Garden Campus, using bentonite.

2. Background

The wetland was initially sealed with bentonite and it has worked over the years with no problem of water leaks. In the recent years it has been losing a lot of water. In 2015/2016 there was a project to install backup generators for electricity and the electric cables for the generator next to the African Pride restaurant went through the wetland ponds and that removed the seal. The wetland water feature is currently not working because it is not sealed and that has a negative impact to garden.

TOR's were submitted to SCM since 2017, to get the Wetland Ponds repaired as per Specifications. Site-visits were scheduled by SCM to prospective Service Providers' (SP/s'). Upon briefing on the scope of works, it was found that SPs' were reluctant to undertake such work due to the technical nature and mixture (Bentonite) to seal the ponds.

Main advantages of using bentonite for ponds is the ease with which it can be applied. Available as a clay or granular bentonite form, the substance does not require any specific equipment for its application.

Bentonite for ponds is also an environmentally conscious pond sealant option. Using bentonite for ponds has had no known adverse effects on plant or wildlife. It is a naturally occurring substance and has no chemical additives. Using bentonite for ponds is an extremely cost-effective option for sealing your pond and preventing leaks. As a naturally occurring substance, it can be found in abundance.

Using bentonite for ponds is also extremely long-lasting solution for preventing leaks and reduce pond maintenance.

PNBG seeks to appoint a service provider to repair and do waterproofing of wetland pond using bentonite to SANBI, Pretoria National Botanical Garden Campus. Service Providers with relevant skills, experience and empowerment profiles in waterproofing and repair of dams, ponds and other related infrastructure are invited to submit quotations to SANBI, to assist to repair water leaks on wetland ponds. The main aim is to ensure that the pond and water streams are waterproofed and not losing water seeping into the soil.

3. Requirements

- A minimum of 5 years of experience.
- Remove plants & store for re-use, consult with the horticulturist at all times, when embarking on such activity.
- Remove existing soil up to 300mm depth.
- Clean-up excavation around rock features & final preparation for new seal layer.
- Compact well over new trenches for electrical cables.
- Install clean soil, ex-garden, for new seal & spread 150mm thick.
