1. Purpose

Terms of Reference (ToR) to be followed for the appointment of a Service Provider to provide advertising services to all the gardens within the SANBI portfolio.

2. Background

On 1 September 2004 the South African National Biodiversity Institute (SANBI) was established in terms of Act No.10 of 2004 through the signing into force of the National Environmental Management Biodiversity Act (NEMBA), No. 10 of 2004 by then President Thabo Mbeki. The Act expanded the mandate of SANBI's forerunner, the National Botanical Institute (NBI) to include responsibilities relating to the full diversity of South Africa's fauna and flora, and build on the internationally respected programmes in conservation, research, education and visitor services developed over the past century by the NBI. SANBI has a broad mandate that is primarily derived from the NEMBA, but also from other legislation and processes over the past decade. The mandate is to explore, reveal, celebrate and champion biodiversity for the benefit and enjoyment of all South Africans which includes managing the National Botanical Gardens (NBGs) as 'windows' to South Africa's biodiversity for enjoyment and education of all people.

In addition to managing the National Botanical Gardens and the National Zoological Gardens, SANBI plays a leadership role in generating, coordinating and interpreting the knowledge and evidence required to support policies and decisions relating to all aspects of biodiversity. SANBI's science forms part a value chain that starts with very basic information on biodiversity and builds on these foundations with assessments, experiments, models and tools. In this way we can influence policy makers and contribute to Government's higher objectives of poverty alleviation, job creation and improving human wellbeing.
