The South African National Biodiversity Institute (SANBI) is a public entity that is mandated by the National Environmental Management: Biodiversity Act (NEMBA), Act No. 10 of 2004. SANBI contributes to South Africa's sustainable development by facilitating access to biodiversity data, generating information and knowledge, building capacity, providing policy advice, and showcasing and conserving biodiversity in its national botanical and zoological gardens.

National Botanical and Zoological Gardens

SANBI's mandate is to explore, reveal, celebrate and champion biodiversity for the benefit and enjoyment of all South Africans which includes managing the National Botanical and Zoological Gardens as 'windows' to South Africa's biodiversity for enjoyment and education of all people.

These gardens are situated in eight provinces in South Africa. Kirstenbosch National Botanical Garden is the flagship garden in terms of visitor numbers and revenue generation with Walter Sisulu National Botanical Garden, Pretoria National Botanical Garden and Pretoria National Zoological Garden as the largest contributors to the portfolio of gardens. The majority of SANBI's income comes from garden admissions.

SANBI intends to implement a membership management system for visitors to the national botanical and zoological gardens in order to increase income generated from gardens as well as to broaden garden access to groups which had previously not enjoyed access to our facilities.
